Curriculum vitae · 2026

AMSTERDAM, NETHERLANDS

Rubén Santana Mangorrinha

Lead Product Designer *Growth, AI & design engineering*

RUBENSANTANAMANGORRINHA@GMAIL.COM · +351 916 525 749 · LINKEDIN.COM/IN/RUBENMANGORRINHA · RUBENMANGORRINHA.COM

14+ years in growth and product design. *Now shipping the prototypes too.*

Lead Product Designer with 14+ years building growth and product experiences across SaaS, e-commerce, automotive and enterprise products. Focused on user activation, monetization, identity flows and AI-enabled experiences.

Recently working as a design engineer, building and shipping interactive prototypes, deploy pipelines and reusable AI-native tooling.

Has led design at Mermaid Chart, PandaDoc and Miro, and delivered programmes for Toyota, BMW and Farfetch.

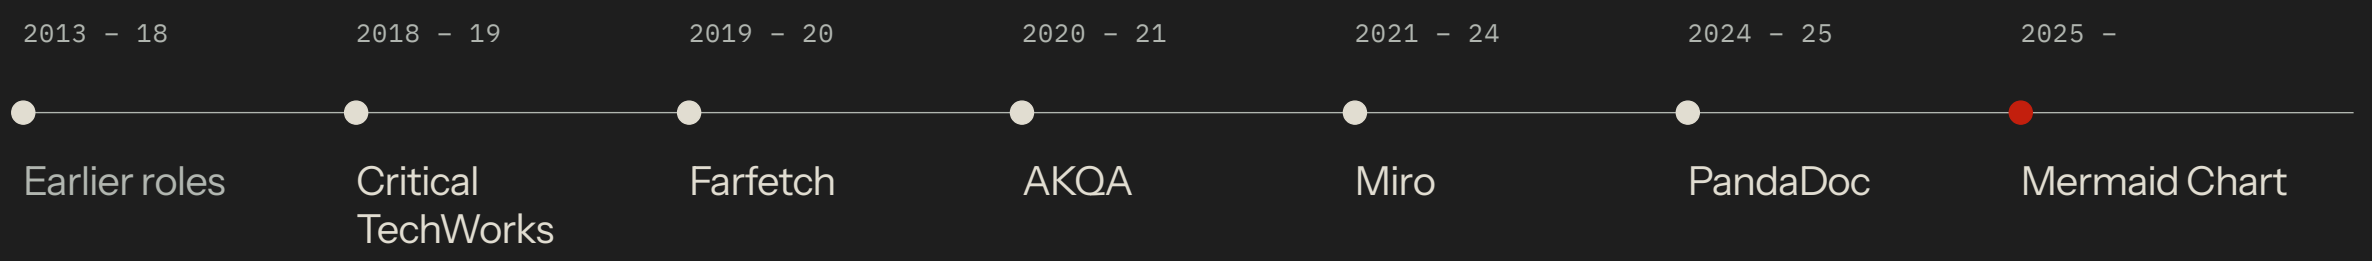

14+	3	30
YEARS IN PRODUCT DESIGN	DESIGN LEADS: MERMAID CHART, PANDADOC, MIRO	MARKETS SERVED FOR TOYOTA EUROPE

What I *bring* to the table.

- AI-driven user experience
- Design engineering and front-end prototyping HTML · CSS · JavaScript
- AI-native tooling and MCP integration; prompt design
- Growth design, activation and monetization, product analytics
- Identity and authentication flows
- Design systems; user research Qualitative · quantitative
- Cross-functional leadership

TOOLS

Figma · Framer · Sketch · HTML / CSS / JS · GitHub · Cursor · Claude · Mixpanel

Thirteen years. One through-line: *growth.*

01 / 06

Lead Product Designer, Growth & AI

Mermaid Chart

Lead product design across AI, dashboard, community and growth, to raise activation and average revenue per new subscription; directly manage a designer covering plugins and integrations.

2026 focus on design engineering: shipping interactive, coded prototypes (HTML, CSS, JavaScript) to live URLs for stakeholder review and usability testing.

Designed “Skills as the New Templates”, an MCP-integrated concept where reusable context bundles shape how AI generates diagrams.

Built a library of reusable internal skills and a GitHub-based concept-to-live-prototype deploy pipeline.

Ground activation, onboarding and pricing decisions in product analytics (Mixpanel); own initiatives end to end and maintain the design system.

02 / 06

Staff Product Designer, Growth

Led end-to-end design for a significant part of the product, from concept and prototyping to high-fidelity delivery.

Set design direction and standards for the product area, using design-system best practices.

Designed AI-generated experiences that help users create their first workflow, template and documents.

Championed usability and accessibility; planned and ran qualitative and quantitative research.

PandaDoc

03 / 06

Digital Design Manager, Growth / Senior Digital Growth Designer

Owned the full user-identity journey: sign-in, sign-up, onboarding, user profile, authentication methods and settings.

Formed hypotheses with product managers, designed solutions, measured success and iterated across growth initiatives.

Researched users and the competitive landscape; partnered with developers on implementation. Helped grow the design team through process and mentorship.

Miro

04 / 06

Senior Digital Product Designer

Led design on the customer-care vertical for Toyota Europe across 30 markets, working with four feature development teams.

Translated user problems and data into solutions that met owner needs and business requirements; aligned cross-channel experience with other verticals.

AKQA

05 / 06

Digital Product Designer

Designed the luxury-fashion e-commerce experience across app and web (inspiration; acquisition & engagement).

Facilitated a user-segmentation governance workshop with 30+ participants; led the global iOS homepage component redesign.

Iterated UI through user testing and introduced proactive feedback systems.

Farfetch

06 / 06

UX Designer (BMW Group)

Improved the innovation and funding process for the BMW innovation centre, which evaluates around 1,000 ideas a year.

Led collaboration with BMW's Munich innovation lab on B2B internal tools; ran design sprints and MVP launches within five months that improved 80% of the funding process.

Conducted field interviews and user testing; mentored 11 designers on the tooling-UI process.

Critical TechWorks

Teaching, and where it *started.*

EDIT – Disruptive Digital Education
Workshop instructor · 2018 – 2020

Planned and delivered hands-on product-design workshops for groups of around 8 professionals, covering discovery through delivery.

comOn Group
2018

Insurance and investment-banking clients (Fidelidade, Bankinvest); a service blueprint surfaced 40% of pain points.

NOSSA
2016 – 2018

30+ websites and apps; grew the digital team from 2 to 6; delivered the UNICEF local-market site (33% increase in donations) and L'Oréal's flagship interactive table.

Tux&Gill
2014 – 2016

Banking-product interfaces and story-driven interactive prototypes.

Leo Burnett, MUSTARD, AWD
2013 – 2014

Early creative and digital design for Garnier, Samsung, Volvo and FOX.

LISBON, PORTUGAL

Always *learning.*

Reforge 2026
AI Growth

Reforge 2024
Driving Growth with User Psychology

Interaction Design Foundation 2018 – 2019
User Research, Methods and Best Practices

Interaction Design Foundation 2018 – 2019
Design for Augmented and Virtual Reality

Interaction Design Foundation 2019
User Experience

Recognised *along the way.*

AWARDS

Young Lions 2017, Digital

2nd place, High Potential, Shortlisted

Auto Promotion Design

Bronze, Honorable Mention
